To Whom It May Concern:

The Power-Flo Technologies family of companies are all “essential businesses” as defined in each state in which it operates. We continue to remain open in all locations.

**Our New York Locations**

The Power-Flo Technologies family of companies continue to operate in New York State because each provides “essential services” and is excepted from the restriction that each shut down.

Those entities include:

- Power-Flo Technologies, Inc d/b/a United Electric Power
- Impulse Electrical Supply, Inc. d/b/a L.I. Electrical Distributing Co.
- USE Acquisition, LLC d/b/a US Energy Group
- Misa Plumbing, LLC
- Electric Switchboard Solutions LLC
- Aetna Electric LLC
- AAI Acquisition, LLC d/b/a AAI A Power-Flo Technologies Company
- Twinco Acquisition, LLC d/b/a Twinco Supply
- Renewal, Powered by Belimo

As part of Governor Cuomo’s Executive Order 202.6 on March 18, 2020, he initially reduced the workforce to 50% and explained what constitutes “essential services”. Quoting directly from that Executive Order:

Any essential business or entity providing essential services or functions shall not be subject to the in-person restrictions. This includes essential health care operations including research and laboratory services; essential infrastructure including utilities, telecommunication, airports and transportation infrastructure; essential manufacturing, including food processing and pharmaceuticals; essential retail including grocery stores and pharmacies; essential services including trash collection, mail, and shipping services; news media; banks and related financial institutions; providers of basic necessities to economically disadvantaged populations; construction; **vendors of essential services necessary to maintain the safety, sanitation and essential operations of residences or other essential businesses; vendors that provide essential services or products, including logistics and technology support**, child care and services needed to ensure the continuing operation of government agencies and provide for the health, safety and welfare of the public; (emphasis supplied)

Governor Cuomo issued a subsequent Executive Order 202.8 on March 20, 2020 that reduced the non-essential workforce in its entirety, effectively closing businesses that he deemed non-essential. In his modification, the Governor stated

The provisions of Executive Order 202.6 are hereby modified to read as follows: Effective on March 22 at 8 p.m.: All businesses and not-for-profit entities in the state shall utilize, to the maximum extent possible, any telecommuting or work from home procedures that they can safely utilize. Each employer shall reduce the in-person workforce at any work locations by 100% no later than March 22 at 8 p.m. **Any essential business or entity providing essential services or functions shall not be subject to the in-person restrictions. An entity providing essential services or functions whether to an essential business or a non-essential business shall not be subjected to the in-person work restriction, but may operate at the level necessary to provide such service or function.** Any business violating the above order shall be subject to enforcement as if this were a violation of an order pursuant to section 12 of the Public Health Law. (emphasis supplied).

Each of the Power-Flo Companies located in New York supply hospitals, food manufacturers and distributors, utilities, and supports the construction industry – each of which are “essential services”. The Executive Orders provide that vendors to those businesses and entities that are “essential services” are, themselves, an “essential service.”

### Our New Jersey Locations

With respect to our New Jersey businesses – Axis NJ LLC d/b/a Axis Control Group and Nassor Acquisition, LLC d/b/a Nassor Electrical Supply, there are currently no restrictions either on a state or county level that require a shutdown. The Companies anticipate that if such an order is issued by Governor Murphy, he will also provide an exception for the essential services provided by those companies.

### Our Connecticut Location

With respect to Dittman and Greer Incorporated, Governor Lamont has issued Executive Order No. 7H, which provides for a shutdown commencing at 8:00 pm on March 23, 2020. However, like New York, the Governor excepted essential services in “16 Critical Infrastructure Sectors” that is far broader than New York’s list of essential services. Among other critical manufacturers, the company supplies pharmaceutical companies, which is part of the “Critical Infrastructure”.

**Our Ohio Location**

Finally, with respect to Power-Flo Pumps in Ohio, the Director of the Ohio Department of Health has issued a Stay at Home Order that goes into effect at midnight March 23, 2020. Ohio has its own definition of “essential services” and has also adopted the U.S. Department of Homeland Security, Cybersecurity & Infrastructure Security Agency (“CISA”) list of essential businesses. Water and Wastewater are considered part of the critical infrastructure; Power-Flo Pumps provides staff and services related thereto, and is therefore, exempt.
