Good Afternoon,

Just a friendly reminder that the “ Isolation and Precautions for People with Covid-19” guidelines from the CDC still applies today. The CDC last updated their site on 5/11/23, you can find the guidelines on our ADP Portal under “Company News and Announcements”, see link below as well.

Our company has adopted the CDC guidelines as policy, so it is important that every employee continue to familiarize themselves with the guidelines to keep everyone safe from illness.

Please do not come to work with Covid symptoms without testing prior, and do not come to work with a temperature. Regardless of your type of illness, you should be fever free, without fever reducers for 24 hours before returning to the office. If non-confirmed Covid symptoms continue it’s important to continue to test daily or see a Doctor. Please wear a mask if you have tested negative but have cold, cough or flu like symptoms for precautionary measures. Additionally, please make sure to wear a mask when returning from being out with Covid for a total of at least 10 days from confirmation of Covid-19.

The Government has again approved free at-home Covid-19 tests, please see the link below for more information.

<https://www.covid.gov/tests>

<https://www.cdc.gov/coronavirus/2019-ncov/your-health/isolation.html#:~:text=Regardless%20of%20vaccination%20status%2C%20you,not%20yet%20have%20test%20results>

If you are not feeling well, please contact your supervisor or HR prior to coming to work, your options will be discussed at that time.

Stay well and have a great weekend.

Diana
